Edison Talks about his Light

NEW YORK Jan --The attention of Edison having been called to the doubts of some Parisian critics concerning the stability of the carbon horse shoe and claim that it eventually wastes away by decomposition he said "A complete answer to that is the actual result I can state that the oldest lamp in my laboratory, after burning 505 hours, had its electrical resistance measured and there was not a difference of one-tenth of an ohm from the time when it was originally put in the circuit The surface of this carbon which burned 505 hours is as bright to-day as it was the day when first put in, whereas oxidization makes carbon black Edison says he has not sold a share of his stock.

A Just Protest.

LINCOLN, Neb Jan 24--The Nebraska board of horticulture is now in session at Lincoln. Among other subjects which have been considered is that of the preliminary report of the congressional committee in favor of withdrawing all the public land west of the 100th meridian, amounting in the aggregate to 100,000 000 acres from entry by home stead and pre-emption by giving them upon long leases to cattle kings The reason for this proposed change of policy is that the land west of the 100th meridian will never be fit for farming not even with irrigation The board considered this allegation in the light of Nebraska's experience, the continued westward extension of the cultivated country, and successful farming without irrigation being opened 100 miles west of the 100th meridian, and decided by the expert to be entirely untrue in the result

On the motion of Wilbur it was resolved that the Nebraska state horticultural society repudiate the congressional report as untrue and injurious to the state and nation and that statistics be forwarded to Washington as a disproof of the allegation, with a view to save this great body of western lands to the people of whom they are the heritage.

WASHINGTON CITY

What Secretary Schurz Proposes to do with the Utes

WASHINGTON Jan 24--Secretary Shurz says a certain degree of secrecy is necessary in the Ute investigation but that Ouray is no sense a prisoner In the opinion of Ouray as well as myself several things are to be accomplished by the present negotiations Firstly, to have the treaty provisions about the surrender of offenders carried out so that partisans in White river murders can be tried second to make such arrangements with the Utes as will avert from them injuries that are threatened to be inflicted upon them by the border population of Colorado and which certainly would come if the present boundaries of the reservation were preserved This accomplished the present difficulties will pass over without an Indian war which will be a great benefit to the country Thirdly to secure for them full compensation for every piece of land they may cede to the United States and a safe and advantageous settlement for the future

A Clerk of the Indian Office Sets Forth the Just Grievances of the Cheyennes

WASHINGTON Jan 24--Wm M. Leeds late chief clerk of the Indian office was before the senate select committee to examine into the circumstances connected with the removal of the northern Cheyennes from the Sioux reservation to the Indian territory He said that the complaint of these Indians that they were being starved at their agency, was true The Indian office was informed by their agent of the lack of food, and Commissioner Hayt failed to furnish the agent with supplies which the treaty called for Leeds said that Commissioner Hayt's statement in his annual report for 1878 referring to the food supply for these Indians is deceptive in several particulars including the following viz That it states that the quantities which were shipped and delivered to the agent, as the amounts which were issued to the Indians makes no allowance for loss and shrinkage and omits the alleged fact that for some weeks immediately preceding the outbreak the starvation ration upon which they had previously existed was further decreased by the non delivery of one half pound per diem of flour to which they were each entitled

Postponement.

WASHINGTON Jan 25--Miss Florence Meeker did not appear before the house committee on Indian affairs to day and the investigation of the causes of the outbreak were postponed till Tuesday

The Democratic Programme on the Tariff Question

WASHINGTON Jan, 24--The democratic members of the house committee on ways and means privately held an important conference yesterday with a view of determining whether or not a general tariff bill should be reported this session The sentiment expressed was decidedly against framing any comprehensive bill but there was considerable disposition manifested in favor of making some changes in existing tariff rates by means of separate bills, leaving each change that a majority agree to recommend, to take its chances in the house upon its individual merits, The adoption of this plan will in a large measure preclude some log-rolling combinations which have heretofore had great influence in tariff legislation and will greatly diminish the number of possible changes

Terms of the Settlement with the Piutes.

WASHINGTON Jan 24--The conference with the Piute Indians from Nevada has been satisfactorily ended The secretary of the Interior to day signed the following with which Winnemucca and his associates express themselves highly pleased

The Piutes heretofore entitled to live on the Malheur reservation who will make that reservation their permanent home are to have lands allotted to them in severalty at the rate of 160 acres to each head of a family and each adult male such lands they are to cultivate for their own benefit allotments to be made under instructions from their agent as soon as enabled by law to do so The department is to give the Indians patents for such tracts of land, conveying to each occupant a fee simple of the lot occupied Those of the Piutes who [illegible] of the Bannock war went to the Yakima reservation and who may desire to rejoin their relatives are at liberty to do so without expense to the government to transportation Those who desire to stay upon the Yakima reservation and become permanently settled there will no be disturbed [illegible] among the white people and earning wages by their own work will be compelled to go to the Malheur reservation [illegible] they are of perfect liberty to continue working for wages for their own benefit as they are now doing It is well understood that those who settle on the Malheur reservation will not be supported by the government [illegible] them by the government [illegible] their [illegible] will leave for home on [illegible]

SPECIAL DISPATCH TO THE OREGONIAN

WASHINGTON Jan 24--[illegible] committee on the colored exodus to day examined [illegible] Dickehart southern passenger agent of the Baltimore and Ohio Railroad Company He testified that he had made several visits to North Carolina in the interests of the company to secure as large a share as possible of the exodus travel and that he effected arrangements with the local promoters of the movement by which the B & O R R obtained the transportation of all the colored people who have up to this time since last October emigrated from North Carolina to Indiana The through fare from Goldsboro to Indianapolis for these emigrants was $16 50 for each person above the age of twelve years Half fare for children from five to twelve and younger children free In all these arrangements the company agreed to pay Taylor Evans (colored) the man who worked up the emigration a drawback of $1 per head on each full fare passenger and fifty cents to each half ticket sold Evans was well known standing inducement held out by himself and agents of competing roads to men like Evans Perry and Williams to get up as large an emigration as possible Evans told witness that he commenced working up the exodus sixteen months ago by means of mass meetings secret societies etc Witness while in North Carolina had seen many circulars asserting that the colored people would find plenty of work in Indiana at wages of from $1 to $1 50 Perry and Williams also circulated a report that emigrants upon reaching Washington would be provided with new suits and transportation to Indiana or Kansas The circulars were largely made up of editorials from the Greencastle (Indiana) *Banner* and also included what purported to be a certificate from a number of North Carolina colored people who had already gone to Indiana that they had found work and advised their friends to follow Perry left the state suddenly during the winter on account of an indictment for forging school certificates and had not returned but Evans and others were still at work and in the opinion of witness, the exodus would continue just as long as the colored people could raise money to pay their fare or until checked by unfavorable reports from their friends at the other end of the line In this event he would go out to Indiana and try to secure them as passengers back over the Baltimore and Ohio lines [Laughter]

The Political Aspect of the Exodus.

H W Mendenhall a resident of Washington testified that he assisted in the organization of the Emigration Aid Society about a year ago He thought the movement would become quite extensive He had stated that if Indiana could offer any inducements to negro emigrants, it would be well to have them go there as they would strengthen the republican party, could not tell what degree of approval this movement met with with his friends in Indiana He had received a private letter from U S Marshal Dudley of Indiana, who said that as a political measure the republican party in Indiana disclaimed any part in the movement but if employment could be found for colored people in Indiana he would be glad to see them come there He understood from letters that the republican party leader in Indiana would not participate in the movement Witness did not know of any republican politicians in Indiana engaging in the movement as a political measure

THE FAMINE IN IRELAND.

Distress Increasing--Scarcely a County in Ireland not Affected.

SPECIAL DISPATCHES TO THE OREGONIAN

LONDON Jan [illegible]--A land meeting was held to day in the Connemara mountains at which several thousand persons attended Davitt and Daley were present There were also land meetings at Bohola at which there were 4000 persons

John Bright speaking at Birmingham yesterday reverted to the Irish question at length and urged the government to take energetic action for the relief of sufferers in Ireland

Appeal from the Lord Mayor of Dublin.

The lord mayor of Dublin has issued an appeal through the London press in behalf of the Mansion house relief committee stating that the committee is not connected with any organization and that it consists of representatives of all creeds and all shades of politics The appeal states that evidence accumulates that there is scarcely a county in Ireland in which terrible privation does not exist in some portion though it is more severe in the western counties and on the northwest and southwest sea boards The lord mayor fears that the public of London does not realize the gravity of the crisis or that unless prompt assistance be given thousands of people must die of starvation He cannot think that if they did they who gave hundreds of thousands to avert the famine in India would have given less to the Mansion house fund than had Sydney or Melbourne The lord mayor states that £3000 have already been distributed out of the £10 000 received but that this is a mere drop in the ocean of need He fears the recurrence of the disaster of 1847 when abundant assistance was forthcoming but too late to save life

LONDON Jan 25--At Saturday's meeting at the Dublin Mansion house relief committee 80 applications for relief were received and 80 grants were made amounting to £2685 The total amount so far granted is £8340 Five hundred pounds were received from Washington and £1500 from New York

PARIS Jan 24--The *Temps* commenting on the [illegible] Parnell by American dignitaries at the legislature says Parnell has evidently been shrewd in selecting the time for his American campaign A presidential election will be in the course of this year and the vote of seven millions of Irish electors is very important There is no wish to estrange the Irish and this is why Parnell is supported He will return to Ireland with the prestige of great success and strength given by a respectable sum of money His party will therefore approach the coming election in especially favorable circumstances with an organization and prepared and with plenty of money

PARIS Jan 24--At the plenary meeting of the republican left to day, it was decided to accord admission to other groups of the left This proposition was agreed to by the extreme left with certain reservations An official journal contains details of numerous changes in the staff of ministry of foreign affairs and diplomatic service

PARIS Jan 24--A resolution adopted on Friday at a meeting of the republican members of the left who favor plenary amnesty offering admission to groups of the left and which was accorded to by the extreme left with certain reservations is the only result of efforts to unite the republican left and the republican union as a single governmental party It is not apprehended however, that the failure to coalesce will endanger the cabinet's majority, as the only burning question plenary amnesty, is one which the republican union through its organ the *Republique Francaise* declares its willingness to postpone for the present

In the chamber of deputies to day while the bill relating to public meetings was under discussion Louis Blanc insisted that the right of meeting and forming associations should be absolutely unrestricted as in England and the United States

The fusionists show unmistakable signs of nervousness over the state offices Secretary of State Sawyer of the fusionist government is out of the city

Should the fusion legislature go to Biddeford it is likely to find the doors of any hall it may engage guarded by soldiers No fooling any longer is the republican talk to-day The state house is converted into a sort of barracks stoves are in the [illegible] to cook army rations of beef, etc. for the troops At the adjutant general's office they have information which is said to fully justify the calling out of the militia Gov Davis is strongly urged to at once disperse the Union hall legislature and the fusion government

On Sunday night the troops will all be under arms Republican authorities assert that if there is a civil war the responsibility rests upon the fusionists

Hot Talk from the Fusionist Organ

AUGUSTA Jan 24--Hillsbury says in the *Daily Standard* this morning "Men of Maine the next article on the programme is to disperse by force the legislature convened in the state house Are you as freemen willing to submit to this outrage? See to it that your representatives are protected This is the culmination of the outrage inflicted on democrats and greenbackers by the stalwart ring of the republican party Who is the man who will now step out of our ranks and side with these cowardly men entrenched in the statehouse who tremble at the sound of their own voices and do not feel safe unless backed up by bayonets and the state militia Let the end be what it may history will read that Corporal Davis was the first man in the state of Maine to authorize an array of bayonets at the state house to keep from its portals citizens of the commonwealth

The Moneys of the State

AUGUSTA Jan 24--The fusionist treasurer White who refuses to deliver the keys of the sub treasury to the republican treasurer Holbrook began to day paying small sums to such of the fusionist legislature as choose to apply therefor The money is not state funds but part of the fusionist subscription fund High republican authority has guaranteed statements that Treasurer White will be put out of the treasury by forcible means next week and that if the banks where the state funds are deposited refuse to recognize Treasurer Holbrook's drafts legal proceedings will be begun in order to vindicate Holbrook's title to the office

Questions to be Submitted by the Fusion Legislature to the Supreme Court.

Following is the substance of the questions to be submitted to the supreme court by the fusion legislature

First--Was the organization of the senate and the election of a president and secretary thereof on the first Wednesday of January 1880 legal and in accordance with the constitution and laws of the state

Second--Was the organization of the house of representatives and the election of a speaker and clerk thereof the first Wednesday of January 1880 legal and in accordance with the constitution and laws?

Third--Were bodies of persons who had their meetings on the evening of the 12th day of January competent to organize a senate and house of representatives for the state of Maine to constitute the 59th legislature, and were they legally organized as such and do they constitute the 59th legislature Were they legally organized as such and do they constitute a legal legislature under the constitution and laws of this state?

Fourth--If the senate organized on the first Wednesday in 1880 was not legally organized is that body a convention of senators elect by or through which a senate may be or must be organized that body having adjourned from day to day from said first Wednesday of January to the present time?

Fifth--If the house of representatives, organized on the first Wednesday of January, 1880, was not legally organized, is that body a convention of members of the house of representatives elect by or through which a house of representatives may or must be organized that body having adjourned from day to day from said first Wednesday of January to the present time

An Interview with Governor Davis.

AUGUSTA, Jan 24--Governor Davis said to night that he had not felt a single regret since he had taken the decisive step of calling troops to the state house The step had been urged upon him for several days by his military advisers but not until evidence of the conspiracy to seize the state house had accumulated to a startling amount did he feel justified in exercising his prerogative as commander in chief, and then only to protect public property and uphold the laws The strain upon republican institutions had been great during the whole controversy but he could see no shadow of arbitrary action in employing the citizen soldiery of the state to protect the government recognized by the supreme court. When all the evidence of the conspiracy was ready for the press the public at large will see how wise this action has been The governor was gratified to see how universally the press of the country of both parties had upheld the right in Maine

On Duty

Sentinels were to night placed outside the state house and the corridors are all guarded Colonel White of Bangor was telegraphed to night to guard the state arsenal at that city The presence of military in the state house somewhat excites the populace who murmur at military rule and there are indications of a movement to intimidate them. The republicans claim that it was the presence of troops that brought the fusion its to their senses and induced them to refer the case to the supreme court About half the force is on duty and the whole force could be brought into line in a moment There is a patrol about town watching for any suspicious movements and trusty men are posted in every town to give instant information in case of any threatening demonstration The military and executive departments are both in readiness for any movement of the kind A drummer who has just been through the state house says that he saw 50 revolvers and 50 rifles There are no indications of an outbreak at this time all though there is considerable activity among a certain class

Garcelon Charged by his Party with having Sold Out to the Republicans

There is much grumbling among fusionists, who are charging that Ex Governor Garcelon traded with the republicans and plotted with Gen Chamberlain to deliver the state house to the republicans. Garcelon, they say went home to Lewiston prior to Chamberlain's taking possession of the state house and there made a trade with Congressman Frye who had been commissioned to make some trade with Garcelon The bargain was successful and Chamberlain went into the state house. This is the talk of fusionists to-night.

Startling Disclosures from Intercepted Dispatches

The state house authorities are now sure that this was to have been the night for the fusion movement on the state house They say that they have intercepted fusionists dispatches showing that the fusion governor was preparing to muster his forces The plan was to move upon Augusta from six points From Biddeford 175 men were to have come on a late Pullman train from Boston All this intelligence is asserted to be confirmed by republican advices just received

General Items.

BANGOR Jan 24--Lieut Col White commanding the 1st regiment of militia returned from Augusta to-night and under orders from Governor Davis assumed charge of the state arsenal. The fusionist arsenal keeper having refused to obey orders except from Smith the state property here will be kept under guard by Col White

Some have strongly urged the governor to order the entire military force of the state to this city to night to be ready to forcibly disperse the fusionist government by Monday The military advisers of the governor believe that the true policy is to end the dual government business at once, rescue the great seal of the state and install Holbrook in the treasury Gen Spurling like many other veterans believes that the whole fusionist government is engineered from outside the state and is part of a scheme to capture the next senatorship congressmen and electoral vote. It is now stated that the fusionists were in a hurry to send their questions to the supreme court and did not send a certified copy of them and it is believed that the judges would decline to consider the copy sent

Jones Smith and Davis of Smith's staff have recruited 40 men in Biddeford and intended to send them to this city by Pullman train but the governor has ordered the Biddeford company to take the same train in the event of the fusionists coming which meant to keep them there and probably they will not come The fusionists from Lewiston intended to come but reports late to night show that they have abandoned the plan

The keeper of the Bangor arsenal refused to give up the keys to Col. Daniel White as ordered and the officials here have telegraphed "Take it by force if necessary

The force at the state house to night is able to cope with a force of 5,000

The governor has received congratulatory and complimentary dispatches from the governors of Mississippi, New York and New Jersey, and a set of resolutions from the Grant club in New York. Congratulations are being received by the governor from all sections of the country sustaining free government in Maine and that the government was strong enough to sustain itself The action of the court is warmly commended for the able decision which would serve as a landmark in the future and as the bulwark of republican government everywhere.

No trouble is apprehended to-night. Gov Davis spent the night at his headquarters in the state house

Chamberlain Clears Garcelon.

BOSTON Jan 24--Gen Chamberlain, of Maine, is the guest of the Middlesex club this evening He made a long speech the principal point of which was the scouting of the charge that he had betrayed Gov Garcelon

The Bogus Governor Proclamates.

BOSTON Jan 25--The *Herald's* Augusta special says the fusionist governor Smith, to-night issued the following proclamation

To the Citizens of Maine My attention has been called to the repeated assembling of armed bodies of men and military companies at the capital of the state causing unnecessary excitement and disturbing the public peace, and I deem it due to my fellow citizens to advise them of the fact that this display of force is without any just cause and serves to keep up the excitement and direct attention from the revolutionary proceedings by which a political party undertook to organize the state government. I have already publicly declared and now repeat that the political party and friends with whom I act have at no time contemplated a resort to force No force has been organized none has been called for, nor have we had any here at any time. We rely upon the constitution and laws of the state and the honest judgment of the people for the vindication of our cause. The police force authorized by Governor Garcelon and placed under charge of the superintendent of public buildings for the protection of public property and the legislature against any resistance which had been threatened in excited public assemblies was discharged almost immediately after the legislature had assembled and organized and since that time all forces of police and military have been under the control of the republican organization without the presence of any force to oppose them and without any just grounds for imposing upon the credulity of the people The lawful government of the state has been excluded from the state house through military usurpation.

The state house is at present filled with armed men A gatling gun covers the entrance and the state is subject to an expense of a $1000 daily for the purpose of maintaining this military show It is proper that our people should consider these matters and whether or not they are willing to countenance and support such high handed outrages upon their liberties? Are they ready and willing to yield their rights as freemen and become slaves to forces which are thus burdening them with taxation and undermining and destroying their free institutions? I have no fear but that the honest and intelligent sentiment of our citizens will not countenance this military usurpation and sustain the legal government in its efforts to restore peace and order, and to promote the welfare of the state JOSEPH L. SMITH.

Discovery of the Fusionists' Plan to Take the State House.

Referring to reports of a contemplated fusion attack upon the state house it can be stated that the list of a company for this purpose enlisted in Augusta and containing 150 names has been obtained Members of Smith's staff had enlisted men in Biddeford and at East Lewiston Documentary and other evidence sustaining these statements was brought before the legislative committee on the subject The aggregate number of men raised for this purpose was about 400 The first orders that were issued by the fusion governor were to call out three companies of militia

Fusionist Gov. Smith's Legal Adviser.

The reports of the fusion government were duly authenticated to A P Gould of Thomaston who had been the legal adviser of Gov Garcelon, and [illegible] advised him to stand by his position as the following letter written by Gould to Smith on the promulgation of the decision of the court will show

MONDAY MORNING, JAN. 26, 1880

THE IRISH LAND MONOPOLY.

In its issues of the 2d and 3d January the New York *Herald* published information which throws strong light on the Irish land question with statements concerning which the telegraphic reports have recently been so much hindered. With its characteristic enterprise the *Herald* has obtained letters from many prominent landholders of Ireland, all of whom naturally think the agitation a bad thing for the country. Sir Charles Knox-Gore, whose estates include 30,000 acres, and whose rent-roll is about £11,000 a year, can see no good in the proposed policy of "establishing peasant proprietors;" he "doubts its practicability and well as its efficacy," and "has his reasons for saying so." His main reason doubtless is that being very well fixed as matters now are, he is satisfied with the existing arrangements. Lord Devon, who owns 33,000 acres, and whose annual rental is £14,000, likewise believes that "introduction of a peasant proprietary would be a fatal step, economically and socially." It would be fatal, no question, to the pretensions of the great landlords; but experience in France, where a "peasant proprietary" was one of the results of the revolution, shows that such a step as the great landlords deplore may really be the salvation of a country. Mr. Maxwell Close, who owns 12,000 acres, thinks the poor law sufficient dependence for support of the people. Many others respond similarly, Arthur Kavanagh, M. P. for Carlow, whose property comprises an area of 26,400 acres, sees in emigration to other countries the only possible remedy. In America, especially, he thinks there is "room for them to thrive and grow rich;" but it doesn't occur to him that his 26,400 acres is too much land for any one man to monopolize, and that but for the monopoly held by him and his landholding associates, and their enormous rents on which they live in extravagant luxury, there would be room in Ireland for multitudes now in the depths of poverty and want, "to thrive and grow rich" at home.

But it need not be expected that the land monopolists of the country will have other words than those of disapproval and condemnation for the "agitation" that demands a change of the system which supports them in superfluity of luxury while it beggars and starves the multitude. If any reform is obtained it will not be by their consent. When Napoleon demanded cannon to quell the revolt of the sections in Paris, objection was made to a course likely to lead to bloody consequences. "Do you expect then," responded he, "to obtain the consent of these people to fire on them?" If any change is ever brought about in the land system of England and Ireland it will pretty certainly be accomplished without the consent of the present landholding aristocracy. The fact is that, as the masses of the people view it, the case is exactly that stated by Rousseau in his powerful attacks on the ancient regime in France. "Are you not," said he in his *Emile*,—addressing himself to the landholding and ruling class,—"are you not aware that a multitude of your brethren are suffering and perishing with want because you have too much, and that the express and unanimous consent of the whole human species is requisite before appropriating to yourselves more than your share of the common subsistence?" Though this comes from the world's great apostle of communism, there is a half truth in it that strikes with tremendous force wherever such a state of things is seen as that existing in Ireland; and it is this underlying half truth that gives force to the present Irish agitation.

Nearly all who own large tracts of land in Ireland are non-residents of the country, and the monopoly they hold is immensely aggravated by this absenteeism. From the country they draw every possible shilling, and expend or invest the money elsewhere. That such a system should prove oppressive and bring multitudes of people every bad year to the brink of starvation is not surprising. Such a result is, in fact, the very thing to be expected. But Ireland is ruled by England, and England is governed mainly by a wealthy conservatism supported by privilege and backed by the whole power of the country. It is rank and titles and wealth, and not regard for men as men, that counts for most under this system, which is a product of surviving feudalism on one hand, and of the money power of modern civilization on the other.

COMPLETE SUBJUGATION.

Every one observes that it is the policy of the democratic majority in congress at this session to skulk, to be non-committal, and to avoid as far as possible everything like aggressive movements. This is in most notable contrast with the partisan fury it displayed at the last session, when, under the leadership of a confederate brigadier who took for his war cry, "He who dallies is a dastard, and he who doubts is damned," the party entered on a crusade against national authority and in favor of the state supremacy or confederate theory of politics, a feeble echo or imitation of which is reproduced in the address recently put forth in this state by Gen. Lane and his associates. In congress this session the representatives of the confederate theory are, so far, more prudent. They have, in fact, backed squarely down from the policy of the last session. Last fall's elections had a most soothing effect; so soothing, indeed, that, whereas the former session was one continuous yell of exultation over the supposed triumph of state rights and state sovereignty, coupled with insulting defiance of those who upheld the principles of national authority as opposed to those of the state sovereignty rebellion, not one word has been spoken this winter in the vein of last year's declamation and vaporing. The bold swash-bucklers of last session have all become doubters and dastards, as tried by their own definition. Not one of them has had courage this session to pronounce even a short eulogy on the late southern confederacy, though last winter the confederacy was the one object of peculiar, excessive and universal admiration. The question now is, has this animal, rampant last year but couchant now, changed its nature, or only cunningly changed its tactics? Not a hard question. The animal will come forth with the old yell again at the earliest moment it dares. With an animal of its nature enforced inactivity and silence even for a short period and as a temporary expedient, is dreadful punishment. Most skillful management is necessary to keep it muzzled and hold it under subjection, lest an outbreak of its natural disposition and instincts betray it and ruin everything. Some legislation is needed this session, but the politicians are manifestly determined to withhold all that is needed. Congress will almost certainly hold a long session, but the business of legislation will be wholly subordinated to that of political scheming. Yet the dominant party has committed so many blunders and had so ill luck in its efforts hitherto to make political capital, that though this is the presidential year, it will be forced to content itself with a little nagging of the administration and some well-startled buncombe speeches. From present appearances it will dare to trust itself further. Its present subjugated condition as compared with its fierce aggressiveness of last year is certainly edifying to behold.

TIME FOR ACTION.

Public opinion throughout the country will soon become thoroughly impatient and even disgusted with the authorities in Maine. The treasonable farce of the political thieves and conspirators headed by "Gov." Smith, has certainly been allowed to go far enough. It should be suppressed now at once. The lawful government ought no longer to parley and palter with it. The governor ought without loss of another day issue a proclamation commanding all persons connected with the pretended government to disperse, and if they do not obey he should at once order their arrest. Then if resistance is offered it will be time to see whether there is any power in the state, or not. It is getting beyond patience that this most infamous conspiracy, based on most shameless fraud and upheld by criminal disregard of lawful authority, is not stamped out. It has assumed the phase of a rebellion, and this timid hesitation is no way to deal with a rebellion. It savors too much of Buchanan's way of allowing the great southern rebellion to organize right under his nose. Every day's delay now on the part of the government of Maine will encourage the conspirators to persist and decisive measures ought therefore to be taken at once. As this conspiracy will not dissolve of itself it must sooner or later be put down by the strong hand; and the sooner the proper measures are taken the easier it will be to quell the disorder and restore the public peace. It is high time for the authorities to act. A pretended governor is issuing his proclamations, a rump of a legislature counted in by a most rascally fraud, pretends to exercise legislative authority, and such things are permitted. Will Maine have to wait much longer for her governor to seize this conspiracy by the throat and strangle it?

The Japanese government has let to Mr. Crawford, a civil engineer of America, the contract to build a railroad fifty-three miles in length extending from the coal mines in the interior through the capital of Yedo to a point on the northwestern coast of the island. The government furnishes the money and Mr. Crawford acts rather as an agent than as a contractor. He has just arrived in San Francisco from Yokohama on his way east to purchase iron and other material for the road. Upon these facts, is founded the hope that the exclusiveness which has so long been a characteristic of the nations of Japan and China, will soon give way and that such commercial relations with those countries will be established as cannot but be very advantageous to the interests of the Pacific coast states. Were the Japanese and Chinese as great bread-eaters as the English, the position of Oregon would give her command of that market, which would make our wheat fields more valuable than the mines of all the coast.

Some months ago, before the present session of congress began, when democratic politicians were talking of making an issue on general revision of the tariff, THE OREGONIAN predicted that they would do nothing of the kind, and further, that they would trifle and palter with the subject and refuse to adopt any consistent system of tariff adjustment tending toward free trade and abolition of tariff monopoly. And now it turns out that a democratic congress, though representing a party professing to favor free trade, equivocates and evades the issue, just as this journal predicted. It will not do hereafter to denounce the republican party as the sole upholder of tariff monopoly. When it comes to the pinch, every democrat in congress representing a monopoly district, will support to the fullest extreme the system of protective duties that robs the rest of the country.

The *Mercury*, democratic organ, just removed from Salem to Portland, is of opinion that in the democratic address too much prominence was given to "a supposed conflict" between national authority and state supremacy. It thinks that the committee, "in raising the party slogan upon the conflict between the general government and the states, as the sole or absorbing issue, have misconceived the temper of the times and the needs of the hour." Its view is that the temper of the times and the needs of the hour require the party to concentrate all its powers upon a further and indefinitely prolonged yell of "fraud" over the last presidential election.

Another book by Mark Twain will soon be ready. It will bear the title of "A Tramp Abroad," being "a gossippy record of incidents, adventures and experiences connected with the author's late sojourn in Europe, fully illustrated by original drawings made by the author himself on the spot." Any book by Mark Twain is sure to obtain readers in great numbers; and this will not be inferior to any by this author in satire, humor and stirring description. The book is sold only by subscription. W. Whitwell, 151 Front street, Portland, will take orders for it. Specimen pages commend it very highly. It will be ready for delivery here in a few weeks.

A private dispatch from Washington announces that Gen. Ben. Simpson has been appointed postal agent for Oregon and Washington. He will, it is learned, assume the duties of the position as soon as his papers come from Washington. It can be said with confidence and certainty that he will endeavor to do his whole duty in the position. It is understood that Postal Agent Seybolt, who has been here some months, will return to Chicago as soon as Mr. Simpson's commission arrives. Mr. Seybolt has proven a very efficient agent during his stay in this quarter.

There is a question in San Francisco as to payment of the expenses of the Grant reception in that city. It has been supposed that the bills would be saddled upon the city; but the question having been raised as to the authority in the premises, the city attorney has rendered an opinion that payment by the city would be illegal. It was on the bill of the Palace hotel, amounting to $404 15, that the question was raised. It would look better for the Grant boomers to come to the front with subscriptions to pay the bills.

In the *Princeton Review* for January there is an article by Edward A. Freeman, the English historical writer and critic, on the fulfillment of the Berlin treaty. He takes the advanced liberal view of the value of Beaconsfield's achievements, and regards the Berlin treaty as a piece of cheap diplomatic jugglery. He is particularly severe upon the betrayal of Greek interests.

REMOVED. THE COMPOUND OXYGEN TREATMENT FOR THE CURE OF ALL CHRONIC DISEASES.

PROF. REES has fitted up offices on corner of Yamhill and First Sts.—No. 174, Room 2.

COMPOUND OXYGEN DOES NOT CURE BY THE SUBSTITUTION OF ONE DISEASE FOR ANother as when drugs are taken, but by an orderly process of revitalization. In the following list will be found the diseases which have proved the most amenable to Oxygen treatment: Consumption, Bronchitis, Laryngitis, Asthma. Dyspepsia in worst forms can be stopped with the Oxygen. Any fever can be stopped in 24 hours. Catarrh in the worst stages of the disease, Dyspepsia in every form, may be radically cured, also Neuralgia, Nervous Headache, Scrofula, Paralysis and all Nervous Diseases.

PORTLAND, Or., Jan. 11, 1880.—This is to certify that I have tried all kinds of Patent Medicines, which have failed as a cure in my case (I having a bad cold, which had settled on my lungs), when I was induced to try Prof. Rees' Compound Oxygen Treatment, which had the desired effect in two days, and in five days' treatment was completely restored to my sound health. JOHN ROBERTSON.

PORTLAND, Or., Jan. 13, 1880.—Having taken treatment from Prof. Rees for a severe cold in the head, so bad that I could not breathe through my nostrils and so severe on the lungs that I could not speak, when I was forced by friends to try the Compound Oxygen, with very little faith, but the first inhalation made me breathe freely, and I am convinced that it is the best and quickest method known for to cure disease, and I cheerfully recommend it to all who are suffering from a Cold or Catarrh in the head. C. A. FRANCIS.

The only Genuine Compound Oxygen from here to New York City. Beware of imitations.

HOME TREATMENT.—Can be safely sent any distance in a small and compact package. Price for treatment $15 00. Supply, with inhaling apparatus and full and explicit directions. j20

AGAINST SPECIAL POLICEMEN

Rev J A Cruzan's Sermon Last Night Commenting on the Late Report of Chief of Police Lappeus.

A very large audience assembled at the Congregational church last night the announcement having been made that the pastor Rev J A Cruzan would deliver a sermon [illegible] Moral Lessons from the Report of the Chief of Police and the New [illegible] matters pending before the City Council Mr Cruzan took as his text the [illegible] chapter of Isaiah 1st verse After a short introduction referring to the re[illegible]

[illegible]

[illegible] the special police [illegible] He said The chief of police tells us that [illegible] are subject to all the laws governing police and have all the powers of regular [illegible] but are paid by those whom [illegible] and long [illegible] of the street [illegible] I have never known a city where such laws existed Occasionally as temporary expedient they are appointed in cities when there are extra crowds but they do not form a part of the regular and permanent police system In all the cities I have ever known the fact that an officer took money was sufficient ground for instant dismissal I make no charges against the special policemen of Portland As far as I know they are incorruptible and unpurchaseable They ought to be [illegible] they are only human Who pays these men I asked the chief of police Are they required to make a sworn statement of who pays them He answered No You can easily see the temptation that lies in the way of a special officer The saloons and gambling dens pay their proportion of that pay Can selfish money loving man strike away the hand that holds out gold and silver Would any of you lay your hand heavily on the hand that pays you $50 or $100 a month? That portion of the city between the river and Fourth street from G to the southern boundary is guarded after 8 P M by four special officers There are no other guardians Every gambling house every house of prostitution and 100 of the 130 saloons are located in that district These institutions know where it is best to locate It is not the special policemen who are to blame nor yet the police commissioners It is the taxpayers of Portland Mr Cruzan suggested that the police force be doubled specials dispensed with and when an officer took a dime dismiss him from the service He closed with an eloquent appeal for better laws and their strict enforcement

OUR ASTORIA LETTER

Mother Goose Poetry—Serious Runaway and Narrow Escape from Death—Rough Bar—District Court, Etc

[REGULAR CORRESPONDENCE OF THE OREGONIAN]

ASTORIA Jan 23 1880

One of the most enjoyable and successful entertainments which has served to while away the tedium of our long and stormy winter was given by the ladies of the Presbyterian church this evening in the shape of a Mother Goose party in which about fifty young ladies and gentlemen personated in appropriate costume the never to be forgotten characters our ancestors have handed down to us in the nursery rhymes From Mother Goose herself down to Tom Tom the Piper's Son the make up was splendid and the parts well assumed The proceeds were added to a fund being raised by the ladies for the construction of a Presbyterian church a worthy object, and we are glad to say it was well patronized

Father P P Powers one of the elders of the church was on his way down from his home at Upper Astoria in his buggy with his daughter Mrs C Leinenweber to attend the entertainment While driving along the planked roadway his horse took fright at a Chinaman they overtook with a pig strung over his shoulders and turning suddenly round in spite of Mr Powers efforts to prevent it started at full speed for home Turning a sharp corner at a bend in the roadway the horse struck the hand rail which broke and the splintered rail entered his side and literally ripped him open causing his death a very short time afterwards. Mrs Leinenweber was violently thrown from the buggy on to the rail and narrowly escaped being precipitated into the river Her body was about equally poised as she hung on the rail, but providentially she fell from it on to the road Mr Powers escaped uninjured except the shock to his system which was a severe one to a man [illegible] years of age The horse though ordinarily very gentle was a fine spirited animal but recently presented to Mr Powers by his son in law, Mr C Leinenweber

Our harbor is lively with shipping, and several are lying at anchor at Fort Stevens The weather has been and still is very unsettled the calm intervals not lasting long enough to make a smooth bar for deep draught vessels If it moderates there will be an extensive clearing on the full moon tides which will occur next week

Our district court convenes on the 27th inst. The docket is large and already some of the legal fraternity of your city have put in an appearance

The old N P T Co's dock so long the landing place of Ben Holladay's steamers has changed hands Mr Dodge who was burned out at Glen Ellis has purchased it for $6500 and it is reported will convert it into a cannery

The Daily Oregonian.

MONDAY MORNING, JAN. 26, 1880.

LETTER FROM WASHINGTON CITY.

[REGULAR CORRESPONDENCE OF THE OREGONIAN.]

WASHINGTON, D. C., Jan. 10, 1880.

PRESIDENT MAKING.

The lates phase of this question is that the special advocates of Grant's nomination admit that it may be necessary for Grant to make a regular struggle for the nomination. They say, while such struggle may be necessary, they only expect thereby to manifest for him such preponderating strength that, after a few complimentary ballots, his opponents will retire and his ultimate nomination by acclamation secured. This will be such an undignified position for him, who twice received the unsought unanimity of his party, and who has since received the highest honors the *world* ever paid to any man, that I do not believe he will lower himself by being a party thereto.

MINING LAW.

The house has passed a bill allowing agents to make affidavits to location of mining claims, instead of, as now, throwing that work upon the owners of the mines, who may never have seen those mines. A bill has been introduced limiting mining claims to 1500 by 600 feet, and confining the operators thereof to that extent below as well as above the surface, thus putting an end to the following your vein wheresoever it may lead. It also provides that no person shal locate a second claim in the same mining district until he has perfected his title to the first located claim by discovery of the mineral deposits therein, or elected to abandon said claim. While this bill is limited to the state of Colorado, it will, before its passage, be apt to have a wider bearing.

LEGISLATION.

Senator Slater, through bills, asks for $60,000 for Coos bay, $500,000 for the Cascades, $50,000 for Coquille river and a blank sum for Yaquina bay. Also, to authorise the Astoria and Winnemucca Railroad Co., to construct bridges over Young's bay and Lewis and Clark's river in Clatsop county, the former to have a draw 50 feet wide. He also introduced a bill to reimburse Lieut. E. S. Farrow and his enlisted men, for property lost by him in making his successful raid during the late Bannock war.

Mr. Brents introduced a bill to relieve Lieut. F. H. E. Ebstein of accounting for government funds sunk on a steamer. Also to extend the land laws over Alaska; also to establish a land office on Spokane. Also to give one clerk of district courts in territories to each sub district of said court. Through him, a military post in Yakima valley is petitioned for.

Mr. Whiteaker introduced a bill for the relief of the officers and enlisted men for their property lost by the wreck of the transport bark *Torrent*, in Cook's inlet, Alaska, in 1868.

Mr. Brents has introduced a bill to place Jno. P. Kirby of Seattle, on the pension list and to re-imburse him for being crippled by the Indians, by allowing him to take up some land he occupied on an Indian reservation. Also to pay Thos. J. Miller for his ferry boat, sunk by the military when they were patroling the Columbia river in 1878. Also to pay Dennis Storrs and others for removing obstructions in Skagit river, by which 60 miles thereof were made navigable.

PERSONALS.

I am pleased to announce that Judge Williams is so much improved that he walks out for a short time each day.

Ex Congressman J. R. McBride, now of Salt Lake City, is visiting Washington.

Hon. W. D. Hare, of Astoria, is here to secure the passage of the bill giving rebates on tin to your canners.

Mr. C. M. Carter is watching the interests of St. James mission at Vancouver, for the relief of which, Mr. Stevenson, of Illinois, has introduced a bill.

WASHINGTON TERRITORY APPOINTMENTS.

Governor Ferry and ex-Delegate Jacobs are seeking the governorship of the territory. The president has not yet decided that he will not appoint an outsider.

Captain Smallwood desires to be reappointed register at Vancouver, and W. W. Newlin, of Olympia, who is strongly endorsed, is his most formidable competitor.

The census superintendent will receive only $500 for plenty of work, but the applicants therefor are numerous. Dr. F. W. Sparling and M. Choir, of Seattle; Dr. T. T. Miner, of Port Townsend; Hon. M. R. Hathaway, of Vancouver, and Mr. O'Brien, of Olympia, clerk of the supreme court, make up the present list, "with several counties to be heard from."

If Hon. Alex. Reed, now receiver at Walla Walla, wants the marshalship, his relations with the president are such that no opponent will have any chance against him. But even the president is not sure that Mr. Reed is really a candidate. The present incumbent, Capt. Hopkins, Mr. L. B. Andrews of Seattle, Mr. J. O. Hoar, of Olympia, and Mr. John F. McLean, of Walla Walla, are also in the field, as also is Col. D. B. Bush, of your city, backed by strong Illinois influence.

Robert G. Stuart will most likely be reappointed register of the land office at Olympia.

Mr. Brents has secured for Mr. Bowdian, formerly of Portland and Vancouver, a good place in the government printing office.

The Leitchville post office, Whitman county, has been re-established, and Mr. Wm. Moreland made postmaster thereof.

A new office has been opened at Waldron, San Juan county, over which Mr. Bingham will preside.

Mr. Thomas J. Hosford has been appointed postmaster at Carrolton, Cowlitz county, in place of Mr. Isaac Newton.

Mr. John Morris succeeds Mr. W. C. Garfielde in charge of the office at New Dungeness, Clallam county.

A RARA AVIS.

Nature, and especially politicians, abhors monotony. Mr. John A. Shoudy gives Jefferson the lie, who said "none resign," for he has resigned the postmastership of Ellensburg, Yakima county, and Dr. W. C. Reid will probably be his successor. Mr. Brents says Shoudy is a good fellow, and I have no doubt he is. Would that his goodness might reach some of the $4000 fellows here in Washington.

CAPITAL.

The London "Times" on the Armed State of Europe.

LONDON, Jan. 25.—The *Times'* leading editorial article to-day, commenting on the proposed increase in the German army, says: "What is disturbing in the matter is the vivid revelation it affords of the terrible condition of the armed truce in which Europe exists from day to day. The wisdom and firmness of statesmen may avert a collision of these armed forces, but such an achievement will require incessant vigilance and patience. At such a time England ought to hold herself as free as possible from all unnecessary entanglements, in order to be able if necessary to make her voice heard at some critical moment when the whole course of European history might be hanging in the balance. Far greater issues to the world are now at stake in Europe than in any other quarter of the globe, and in deciding them England may have a still more beneficent part to play than ever she has yet fulfilled. To play it effectively she must be strong, and she should be at peace."

THE GRAIN MARKET.

An Exciting Day in the Chicago Market—The Action and Purposes of the Ring.

SPECIAL DISPATCH TO THE OREGONIAN.

CHICAGO, Jan. 24.—The grain markets have been exciting during the latter part of the week, owing to unauthentic reports that the New York clique are selling out. There is no truth in the reports, however, and according to the best obtainable information the ring are not only holding all their grain but are not at all anxious to ship at present prices. Freight lines report no applications for cars from the ring. It is almost certain at present that Keene and his friends design holding their purchase until the opening of navigation in April, when a tremendous tumble of freight rates is expected, and a natural advance in the price of grain will ensue, so that the crop may be freely moved without severe injury to sellers, holders or ultimate buyers. It is doubtless the tactics of the ring to put wheat beyond the highest price it has already reached, but what success they will have hinges more largely on future events in Europe than on the amount of money the ring control, which in truth appears to be practically unlimited. The heavy decline of ten cents from Monday to to-day has sadly shaken up small speculators, who have given way before each day's decline until yesterday, and to-day there was a perfect rush to cover long contracts, and grain was thrown on the market in huge blocks that sorely demoralized it.

The most marked decline is in corn, which for two days has gone down in disproportion. It gave way under the persistent bearing influences of one house who have been largely interested on the short side to-day. There was very near a panic, and prices closed at about the lowest figures since October, in corn, although wheat has several times been below the price of to-day. A speedy reaction is not improbable, although nobody dares to predict. Oats shared in the general demoralization. Provisions have been inclined to weakness, and there was quite a falling off in business as well as in prices. Closing rates were nearly at the inside, but the market held up well under to-day's raid. Hogs are coming in very slowly, and packing is being done under the difficulties of continued warm weather and high prices of raw material. Sales for the week for February were, wheat, $1 14⅝@$1 24½; corn, 35⅞@39¼; Oats, 31⅛@34; pork, $12 40@13; lard, 7⅜@7¾. Closing for February, wheat, $1 14⅝; corn, 35⅛; oats, 31⅞; pork, $12 45 bid; lard, 7¾ bid. Closing cash prices, wheat, $1 14¼; corn, 35⅞@36; oats, 33; rye, 76; barley, 78@80; pork, $12 40; lard, $7 35. Sales of cash were, rye, 74@76½; barley, 70@85. Whisky declined from 9 to 8, and was steady at the close. Receipts for the week were, wheat, 305,000; corn, 761,000. Sales 161,000. Shipments, wheat, 118,000; corn, 254,000, oats, 76,000. Receipts same time last year, wheat, 595,000; corn, 419,000; oats, 172,000. Shipments, wheat, 222,000; corn, 314,000; oats, 146. The movement has diminished very decidedly as compared with last year, and with last week. Monday promises to be an exciting day.

Rumors were spread on change this afternoon that Keene and his condjutors who are holding the major part of the wheat in store were either selling out or contemplating it in the near future. The rumor has been carefully run down to-night and found baseless. The general opinion is that the intention is to hold the grain until navigation opens in the spring when it may be moved with profit and when the continental demand will be greater. To-day's three-cent break is regarded as chiefly local.

New York Freights and Markets.

NEW YORK, Jan. 24.—There is no material change to note in the freight market via Cape Horn, which is rather quiet, as the season is well advanced, and the great bulk of shipments have been made. The advance in rates has also tended to cause some shippers to hold off, as they anticipate that when all lines shall again have vessels in brisk competition it will cause a decline. The accumulation of tonnage at this port has seldom if ever been so large, yet there are but few vessels that are suitable for the California trade and for these full prices are asked. In fact rates are more than current rates will warrant paying. The transatlantic trade is extremely dull and the demand for tonnage is light.

Continued mildness of weather has caused a general quietness in the markets. Still, preparations are making for an active spring trade, for which prospects continue to be promising. Breadstuffs remain dull and depressed, and shippers hold out stubbornly, as foreign markets have large stocks and are inclined not to anticipate wants. Provisions are also dull with very little change, as the market is held by speculators. Rio Coffee is moderately active and prices somewhat firmer. Teas are offered to a fair extent at about former rates. Business, however, is restricted in most grades. Refined sugars are moderately active and easier. Crushed, 9⅝c; powdered to granulated, 9⅝c; cut loaf, 10@10⅛c.

Coffee—A standard, 9⅛c; do off, 8⅞@9⅛c; white extra C, 8⅝@8¾c; extra C, extra C, 8¼@8⅜c; C, 8@8⅛c; yellow, 7⅝@8c.

Spices—Fair demand at full prices.

Rasins—Better demand at easier rates with considerable purchase for the California market.

Crude Oils—Quiet and firm especially for sperm.

Hardware—Active in many departments. The revision of price lists continues and are working upward. A great many manufacturers have withdrawn their lists altogether, and refuse to contract except at rates ruling at the time of delivery. Nails continue in demand, but an advance to $5 25 per keg has frightened some buyers. Pigiron is a little unsettled; No. 1 is quoted at $40 and No. 2 at $38; sales of No. 1 at $42@45. Scotch pigiron is easier under better demand; English pig, very firm. Manufactured iron has undergone a sharp advance, owing to the high cost at mills and active demand. Common merchant bar is quoted at 3½c.

Pig lead very firm at six cents for common. Hides in moderate demand, prices scarcely so firm. Leather dull and easy. Paints, fair demand; prices pretty firm. Hops remain very quiet at 35a40c. Wool rather quiet, but prices firmly maintained. Sales include 240,000 pounds and 160 bales fall California at 19@27. Dry goods market shows a great deal of strength, and a good demand prevails for all staple fabrics.

Freights at Boston rather quiet; the ship *McLaren* is reported as having about 1000 tons on board. Railroad freights at Boston have been quite active, shipments for a week amounting to 5561 packages, including 450 packages fish, 15 cases figs, 100 boxes herring, 50 cases canned goods, 12 barrels starch.

Raisins—Dull but very steady.

Prunes—Very quiet; old, 7@7¾, new, 8⅛@8¾.

Figs—Dull. Overland shipments include 5 cases.

Dried apples—Dull, unsettled, weak.

Boston Wool Market.

BOSTON, Jan. 24.—There was considerable excitement. Buyers were more numerous, manufacturers being free purchasers. The most marked improvement was in Michigan fleeces, which advanced about 2c per pound on recent current figures. Several lots of fleece wool were resold at an advance of 2c to 3c on cost a few weeks ago. The demand includes all grades and qualities. Total sales foot up 4,427,850 pounds of foreign and domestic. There was more activity in washed fleeces than for a long time, and in medium, unwashed wools sales were very large. Combing and Delaine fleeces were comparatively quiet. Sales include Ohio and Pennsylvania fleeces and No. 1, 47½@58, and medium, 47½@52½; Wisconsin, 47½@48; New Hampshire, 46½@56; Combing and Delaine fleeces, 50@57½; eastern and valley Oregon, 32½@45; Missouri, 40@42½; Kentucky, 45; Texas, 30@36½; Territory, 25¼@39; tub washed, 60; unwashed and unmerchantable fleeces, 29@43; super and x pulled, 45@60; spring California, 20@30; fall California 21@30; also a sale of 1,410 250 pounds of Montevideo, mostly to arrive, at 37½@40.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LANDS,

PEN D'OREILLE DIVISION.

THE NORTHERN PACIFIC RAILROAD COMPANY

Is now offering for sale nearly

5,000,000

Acres of its lands in the Pen d'Oreille Division in Eastern Oregon, which are comprised in the odd numbered sections for forty miles on each side of the railroad as now located from the mouth of Snake River, in Washington Territory to Lake Pen d'Oreille, in Idaho. These lands, of unexcelled fertility, and adapted to farming, at any scale that may be desired, are offered by the Railroad Company at such prices and terms as cannot fail to induce settlement and cultivation, causing a rapid growth in population of the country, and increase in value to these and other lands.

The following resolution of the Board of Directors of the Railroad Company passed November 24th, 1879, fixes the cash price of land to actual settlers at two dollars and sixty cents per acre, which it is believed is a lower price than has ever been voluntarily placed upon so lands by any land grant company. This is in fact, cheaper than the settler can purchase the same class of lands of the Government under the pre-emption law, for the expense attending the making of final proof, and the journey to the land office which he must necessarily make in order to complete his entry, is more than the ten cents per acre added to the government price by the Railroad Company.

"*Resolved*, That the Agricultural Lands of the Company west of the Missouri river to Puget Sound shall be offered for sale to actual settlers at Government prices of $2 50 per acre, with an addition thereto of ten cents per acre to be paid to the Company to reimburse it for the cost of selecting, surveying and conveying said land."

"This resolution does not apply to coal or iron lands, nor to lands chiefly valuable for timber, nor to lands required for town sites or suitable for manufacturing sites, nor in regions where water is scarce to lands containing springs or other natural supply, where it will be for the interest of settlers at large that such water privileges shall not be exclusively held or controlled by any individual; nor to the lands required for the use of the Company in connection with the operation of the road."

To persons wishing to purchase on time, the remarkably low price of four dollars per acre is given on the following terms: One fourth cash, at time of purchase, the balance in three equal yearly payments at 7 per cent interest. The above price for time sales is adopted for the present, but may be subject to change in the future.

All persons who have filed with the Railroad Company notices of intention to purchase, for "settlers' Applications" as they are called, for land in this division except for the class of lands reserved by the terms of the resolution above given) and who have continued to reside upon or cultivate the lands and applied for, are requested to complete their purchase by making cash payment, or time contracts, for the same. For this purpose application should be made to the Railroad Land Office at Colfax.

Persons who have not made actual settlement or improvement upon lands they may have applied for, have no right to the first privilege of purchase; such lands will be sold to the first applicant. Those persons who have in good faith settled upon and improved the Company's land should lose no time in securing the same, as after a given time the lands are subject to sale to any other person.

The land in this division is now offered for sale, but no more "Settlers' Applications" will be filed. All communications respecting land in the following described Townships:—

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
